It is with great delight that I announce the BB WOLF BOX SETS are here and available for purchase! This very exclusive, very limited (only 100 made) item has a beautiful laser carved image off BB on the top of the hand made box and inside this split-level work of

carpentry art we have: The BB Wolf and the Three LPs graphic novel; the BB Wolf & The Howlers cd with 7 original songs; 2 shot glasses; 3 coasters, and a signed and framed BB Wolf print!

We really wanted to make something special for the collectors out there who seek out truly unique items. So we designed this box to represent the era that the story takes place--giving it an antiquated look and feel with hand-crafted carpentry and intimate details. The split-level interior is really fantastic!--When you lift off the top lid you immediately see the book and the 2 shot glasses nested in their own compartment. And underneath the book lies a hidden layer where you'll find the cd, 3 exclusive coasters (beautifully designed by Troy Geddes) that each look like an old record label, each representing the three songs of BB's that are featured on the cd, and finally the signed and beautifully framed limited BB Wolf print!

We're very proud of this item and limited it to only 100 pieces to ensure its uniqueness. Shipping is free on this item as it is on all the items on the website.

All this for \$75.00!!!

Word.
